

## Wireless Smoke/ Heat Detectors

### *The Ultimate Protection*

Critical to your family's safety, ADEMCO's wireless smoke and heat detectors provide the ultimate protection of life and property. Since they install without drilling holes or running wires, they preserve the beauty of your home while protecting it.

- The most reliable wireless security technology provides maximum protection for any room
- Mounts on walls or ceilings (including cathedral ceilings)
- The attractive, low-profile units blend with any décor

A perfect complement to your smoke detector, ADEMCO's Wireless Rate-of-Rise Heat Detector provides valuable additional protection in areas such as kitchens, where it won't alarm due to smoke.

- Offers double protection, tripping when temperatures reach 135°F or when temperature rises 15°F or more per minute
- Smart Check™ remote maintenance reporting automatically alerts the central station when it is in need of service
- Built-in drift compensation continuously corrects sensitivity variances caused by dust
- Uses readily available lithium battery
