

See your loved ones while you are away!

View live video from almost anywhere.

How often have you wanted a way to keep in touch with an elderly parent or check on the caretaker of an infirm relative?

Several portable indoor and outdoor cameras available—can be placed virtually anywhere!

For more information, please visit www.mytotalconnect.com

With Honeywell Total Connect™ Video Services, you can check-in any time you want from almost anywhere. With our video system you can look-in on your loved ones by viewing video clips on any supported PC, smartphone or other web-enabled device.

You will never again worry that a member of the family is leaving home without appropriate supervision; you can receive a picture when they leave the premises! You'll have peace-of-mind knowing that you can look-in on the caretaker and follow your loved one's treatment plan throughout the day. Like more and more members of two income families, you've had to rush from home to the office trying to be in two places at once. With our system, you can handle all of your responsibilities without the stress of running back and forth.

Honeywell Total Connect™ Video Services are perfect for those of us who are concerned about independent elders. Receive notice when your loved one passes a doorway, or for any other event you choose to program. Knowing that your loved one is up and about can be a mind-saver. Knowing that something is wrong if they are not up and about could be a lifesaver!

Everyday between 6 a.m. and 9 a.m. you want to be sure that your elderly dad is up and about.

Around 8:10 a.m., you receive notification and see that your dad is in his kitchen.

Total Connect Video Services make it easy to see your loved ones while you are away. So what are you waiting for? Call now for a FREE in-home demonstration!
